Re: East Haven Windfarm –East Mountain Project

Dear Andy:

Thank you for your letter dated November 6, 2003 requesting a determination of whether a State Stormwater Discharge Permit or NPDES Construction Permit is required for the proposed project.

Based on the information you provided it is my understanding that the proposed project will not discharge stormwater to Class A waters, or create more than one acre of new impervious surface, and will not disturb more than one acre of earth surface.

Consequently, I concur with your assessment that no State Stormwater Discharge Permit or NPDES Construction permit is required for the proposed project. If you have any questions please call me at 241-1453.

Sincerely,

A handwritten signature in black ink that reads "Padraic Monks".
